

BENIARBEIG

Nº 126 (Second Season)

DECEMBER 2017

INTERNATIONAL DAY AGAINST GENDER VIOLENCE

During the week of November 25 Beniarbeig commemorated the International Day for Elimination of Violence towards Women, declared in 1999 by the UN in recognition of the Mirabal Sisters (Patria, Minerva and Maria Teresa) assassinated in that day of 1960 by the regime of the dictator Rafael Leónidas Trujillo.

The first of the events organized by the Town Hall of Beniarbeig took place on Saturday, November 25th with the concentration summoned in the square, where in presence of half a hundred attendees, Marisé Torres, Culture Councilor, proceeded to read a manifesto, which emphasized that only in Spain, so far this year 45 women and 8 minors have already been murdered, in which It is the highest representation of the forms of submission of women by part of the machismo. Also, she did Reference to the State Pact against Gender Violence which includes more than 200 measures and a budget of 1,000 million euros for the next 5 years.

The manifesto finalized emphasizing the need of involvement of the city councils, because it is about the administration closest to the citizenship. In this sense Mrs. Torres announced that the Town Hall of Beniarbeig «agrees not to subsidize acts which the organizing entity uses women's body in sexist form as an advertising claim». To finish the act a minute of silence was kept in memory of all the mortal victims of this social scourge.

The following week, on Friday the 1st of December the same city council, in collaboration with the UNED center in Dénia, organized the conference "Gender Violence: emotional and sexual abuse " by Carmen Mas Llull, professor of psychology. The conference took a look around all types of violence that exercise over women, showing that oftentimes only aggressions are identified as violence, and does not take into account those symbolic or psychological violence such as contempt for the simple fact of being a woman or reification and hyper sexualizing in some media.

ALERTCOPS

From the Sub delegation of the Government, ALERTCOPS has been created, an app for Mobile devices that allow any citizen, Spanish or foreign, to be able to communicate with the State Security Forces (Police and Guardia Civil) an alert on a criminal act or incidence of security of which has been a victim or witness.

Its download is free and is compatible with all operating systems. This operation is easy and intuitive and in terms of accessibility, apart from being in Spanish and English, too. It is adapted for people with hearing or vocal difficulties.

MOTOR PUMP FOR CLEANING CONTAINERS

In order to improve the pick-up service for cleaning and road cleaning, the concessionaire of the service of cleaning and collection of rubbish **SINMA**, has incorporated to its provisions a new unit of water pressure cleaning. The company has acquired a medium-sized vehicle, to which equipment with machinery designed for cleaning pipes and objects has been incorporated with water pressure, with water tank, and can work continuously if it is connected to the water network.

This device can reach any part of the urban core and will allow to increase the efficiency of the cleaning of the containers of the public road, since it is being cleaned with a pressure water gun.

With the new unit, which will be handled by an operator of the same company **SINMA**, will proceed to the cleaning of the interior and exterior of the containers (both of the selective collection underground as well as of the green containers of organic waste) and of their platforms and areas adjoining, as well as cleaning the public thoroughfare, including its streets, squares and the rest of public spaces. For this, as it has SINMA's nuances, comprehensive planning will be carried out for areas where full cleaning will be done (being notified in advance to the residents).

This is reflected in the Municipal Ordinance of Use of Public Routes; where in the third point of article 17 says that: It is prohibited to feed the animals on the streets and / or public spaces, also on doorways, windows, terraces and balconies and in rivers. **It is especially forbidden to provide food to cats and pigeons.**

This measure tries not to develop colonies of cats in abandoned spaces, since the colonies produce injuries to neighbors and in addition, they are a source of diseases, such as rabies, toxoplasmosis or equinococcosis. Diseases that can seriously affect humans, especially little children

THE LIBRARY

On November 15th, the Reading Club finalized “Manual For Cleaning Women“ of the American writer Lucia Berlin. The usual gathering that happens to each reading analyzes in an entertaining way the aspects of the book that more and less liked the members of the club.

Initially, most readers agreed that it was not a book that had just fit too much in its tastes, and moved away from their usual readings.

But, little by little, with the exchange of opinions, they went positive. Some positive touches of humor emerged as the novel passes mostly in a depressing atmosphere of difficult alcoholism and human relationships.

As for the “Year of the Reader”, we will finish it with **El Viaje del Elefante**, by renowned writer José Saramago (1922-2010). If you want to add yourself, you just have to contact the library.

The epic journey of an Asian elephant named Solomon which, in the sixteenth century, had to travel through Europe by whims and absurd strategies. A real fact, occurred at the time of Maximilian of Austria, who is in History or, to be stronger, in the small story, although characters that took part in real life in our days and that now they have another chance to be in the hand of the brilliant imagination of the Portuguese writer.

A choral novel full of men and women who enter and leave following the steps of the elephant and his keeper and crossing to share perplexities, efforts or the harmonious joy of a ceiling. A novel full of compassion, irony, sarcasm, beauty in a pure state and humor, a humor with which Saramago allows us to penetrate into the labyrinth of conflicting humanities without having to abjure our human and reader's inquiring condition.
